

HOT WATER URNS

STAINLESS STEEL

NEW
concealed element

Available in 'Standard' and 'Safe-T' models, **CROWN** Urns include a range of built in features that place them at the top of the list of urn manufacturers.

Constructed from the highest quality stainless steel and incorporating a thermostat control and boil dry protected element, these urns are suitable for all applications from catering to sporting clubs, factories and take away shops.

A feature of the 'Safe T' Urn is the lock down lid, an essential safety addition when young children are nearby.

Capacity	Cups	Diameter	Height	Weight	Element

DRINK MAKER

3 MODULE & 5 MODULE

HOT
coffee & chocolate

The **CROWN** 'Drink Maker' is the perfect kitchen companion for any busy office or factory with high volume traffic, serving continuous cups of boiling water. The plastic body is easy to maintain and clean and can handle the roughest cleaning, water spillages are overcome by a large fill access in the top of the case.

Units supply a measured amount of either chocolate, coffee, sugar, or whatever drink you desire.

Model	Cups	Litres	Height	Width	Depth	Weight
DM3	55	9.5	560	385	325	7kg
DM5	100	18	560	600	325	12kg

INGREDIENT DISPENSERS

1, 2 & 4 MODULE

COMPACT
and easy to use

Ideal for use in waiting rooms, offices, kitchens and canteens. Easy to clean and maintain, these units are ideal for dispensing coffee, sugar, chocolate or tea.

Either of the units can be easily mounted on a wall or used free standing, and is a perfect companion to a **CROWN URN** or **CELSIUS 100** boiling water system.

FOOD & SOUP WARMERS

ELECTRONICALLY & THERMOSTATICALLY CONTROLLED

Economy
Model

Specifically designed to keep food at between 80 to 85 degrees celsius, complying with health regulations, the **CROWN** Food & Soup Warmer uses a unique electronic control system that holds the water temperature within one degree.

The advantage of this advanced control system is that the food temperature cannot fall to levels that allow bacteria to form.

Food keeps hot for hours without drying out. Also available with hinged lid and thermostat control for cooking purposes, using new concealed element.

Model	Capacity	Watts	Diameter	Height
HP7	7 Litres	750 / 1500	240 mm	340 mm
HP11	11 Litres	750 / 1500	295 mm	340 mm

BUFFET QUEEN / BUFFET PRINCESS

WITH NEW 'CONCEALED ELEMENT'

Soup kettles

For frontline buffet service in hotels and restaurants **CROWN** manufactures the Buffet Queen and Princess.

These stylish **Food & Soup Warmers** are finished in an antique silver exterior with long life stainless steel interior.

Both models cook as well as hold the contents of the stainless steel bowl at serving temperature, ie 80-85c.

Both models come with a hinged lid, removeable collar and stainless steel bowl come with a hinged lid and bowl supplied.
